Our Faith, Our Legacy, Our Turn

Progress Report to Parishioners on Capital Campaign as of September 30, 2026

Amount pledged: $2,631,039.77
Amount collected to date: $1,205,106.90
Amount spent to date: $900,370.73

Thank You!

- Many thanks to our generous donors for exceeding our original pledge goal of $1,000,000 and faithfully fulfilling their pledges.
- We appreciate those who did not make a pledge but have contributed to the campaign. Our contribution total from these families currently stands at $20,524.00.
- We are very grateful for those who have exceeded their original pledges by a combined total of $18,320.00.
- Your generous commitment to our faith, our legacy and our spiritual home has made it possible to complete many projects around St. Mary's campus.

Newly Completed Projects Funded by the Capital Campaign

We purchased and installed a stairlift chair along the stairs to the choir loft. *Some of our choir members have been waiting a long time for this and are very grateful!*

The parking lot behind the Academy was milled, paved and painted. Some areas in the front driveway and parking lot were milled and patched. *(Other areas will be paved after future projects are completed; we don't want heavy equipment ruining a new paving job!)*

A video security system was installed. This includes 17 new cameras, three video intercoms, and two viewing stations. These cover the interior and exterior of the Church, Parish Center and Academy. This project was paid for by a combination of Capital Campaign Funds and grants obtained by the Academy.

Our Faith, Our Legacy, Our Turn

Progress Report to Parishioners on Capital Campaign as of September 30, 2026

Previously Completed Projects

- ✓ Repaired and completed point and patch of exterior stone on church, including the chimney.
- ✓ Repaired concrete block in bell tower.
- ✓ Repaired pillars at the front entrance of the church.
- ✓ Refurbished and painted the exterior molding around the stained-glass windows on the south side of the church and the three rose windows. Scraped and painted the molding around all small windows at the back of the church.
- ✓ Removed and replaced seven windows on the sides of the front entrance to the church.
- ✓ Refinished and repaired the front and side wooden doors to the church.
- ✓ Two portable air conditioner units were added to the choir loft.
- ✓ Sections of the church roof were repaired to get us through the winter.
- ✓ Handrails were built and installed on the stairs for the side altars.
- ✓ Three new steel man doors installed on the parish garage building.
- ✓ Repaired the brick chimney on the academy.
- ✓ Installed air conditioning units in academy classrooms and offices.
- ✓ Addressed drainage issues that caused water to enter and flood the Parish Center basement. This included installing drywells on both sides of parish center entrance, installing gutters, closing off the scuppers and redirecting water on the roof to existing drains.
- ✓ Repaired and/or replaced walls and floors in parish center basement damaged due to flooding. *This was covered by insurance.*

While we were taking this photo, a woman stopped, looked up, and said appreciatively, "They sure did a beautiful job!"
